REF.953303 1/W VIDEO MILO PANEL BLACK

Microphone

High definition camera
Lighting for night vision with LEDs

Speaker

Pushbutton for calling

Decorative metal
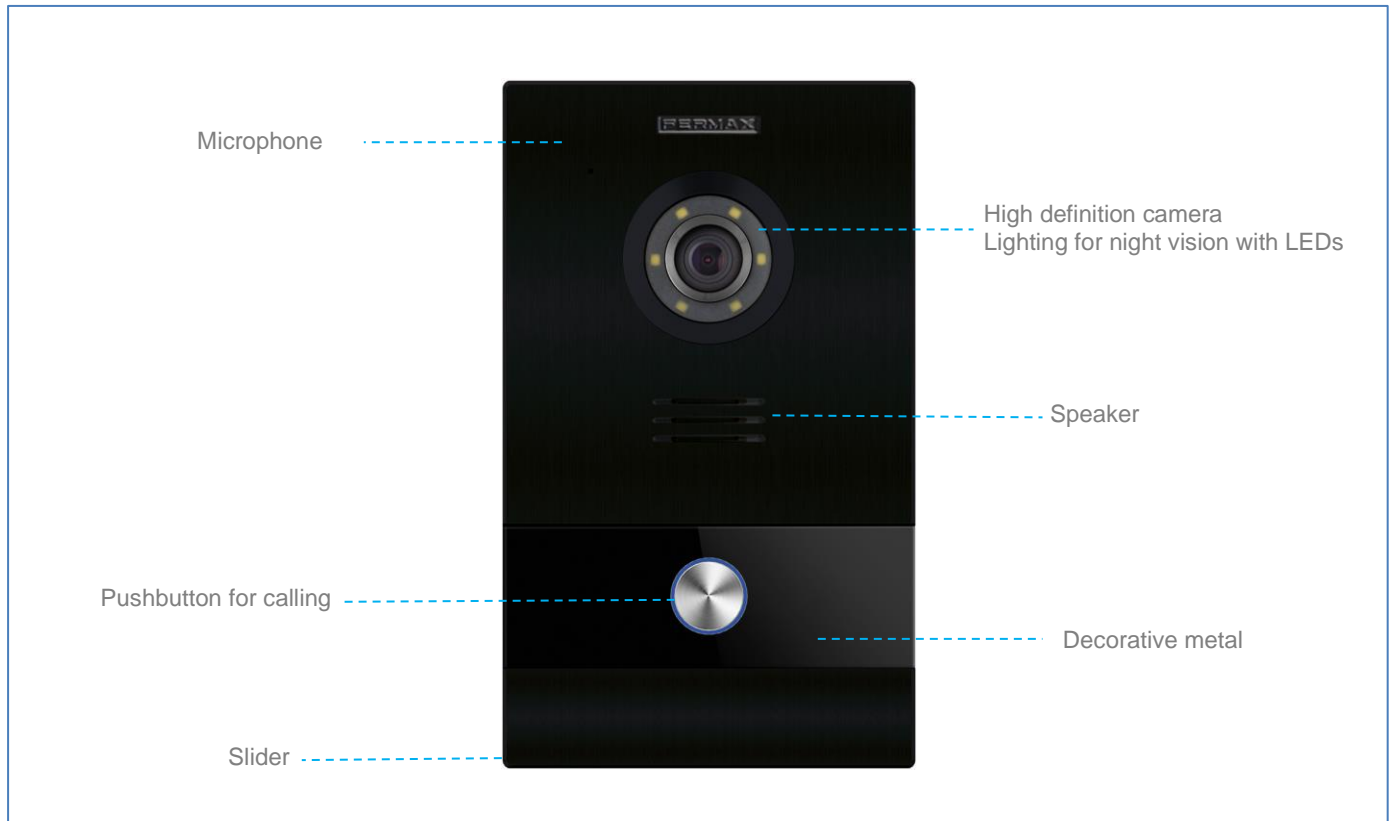

Slider

1/W VIDEO MILO PANEL BLACK is presented in one version without proximity reader. For integrated prox reader, refer to MILO 1W panel grey color ref.9534. Not compatible with Lift Control function

FEATURES

- Aluminum Profile
- High Resistance Tempered Glass
- High Definition Color Camera
- Low Power Consumption
- Wide Range Working Environment
- SIP compatible

- Linux Modular Structure
- Available In 10 Languages
- Remote Firmware Update
- Tags for identification in called devices

FUNCTIONS

CALL TENANT

Visitors are able to call the desired tenant from 1L panel. Alternatively, it can be configured to call one guard unit acting as an emergency call panel.

TECHNICAL SPECIFICATIONS

System:
- CPU: ARM Cortex-A7 1.2GHz
- FLASH: 128M
- SDRAM: 64M

Audio Features:
- G.711 protocol
- Audio level 17.7 dB

Camera:
- 1/3" CMOS Color
- 120º visual angle. 52º (V), 100º (H)
- 1 Mega Pixels
- Minimum illumination 0.5 LUX
- AWB

LED:
- White LED
- LM 60 mA Min. 24, Typ. 26
- View Angle 2θ1/2: 120

Power Consumption:
- On standby: 125mA
- Working: 250mA
Working voltage:
- 12 VDC

Connectivity:
- Ethernet RJ-45 Connector
- Exit button and door sensor connection
- NO, C, NC: Door lock release connection
- Built in web server for configuration and remote management
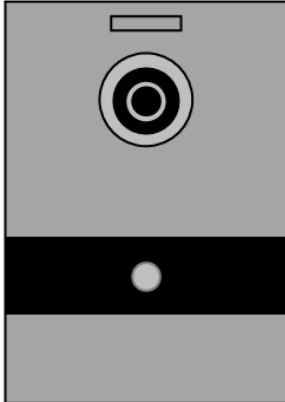

Working Environment:
- Temperature: -40 ºC – 70 ºC
- Humidity: 20 – 80% (Non-condensing)
- IP 54

REF. 1586 4 PORTS SWITCH POE

This switch complies with the IEEE 802.3af/at standard.

Automatic detection of any devices powered in the standard is enabled at the 1 – 4 ports of the switch. The UP LINK ports are used for connection of another network.

The LEDs at the front panel indicate the operation status.

The PoE technology ensures a network connection and reduces installation costs by eliminating the need to supply a separate power cable for each device. This method allows supplying other network devices, such as IP phone, wireless access point or router.

FEATURES

- 4 PoE ports 10/100Mb/s (data transfer and power supply)
- 2 ports 10/100Mb/s (UP LINK)
- Up to 100m (MEET IP Video Intercom)
- 30W for each PoE port, supports devices complaint with the IEEE802.3af/at (PoE+) standard
- Supports auto-learning and auto-aging of MAC addresses (1K size)
- Include additional assembly elements

TECHNICAL SPECIFICATIONS

Ports	6 10/100Mb/s ports (4 x PoE + 2 x UP LINK) with connection speed auto-negotiation and MDI/MDIX Auto Cross
PoE power supply	IEEE 802.3af/at (1÷4 ports), 52 V DC / 30 W at each port *
Protocols	IEEE802.3, 802.3u, 802.3x CSMA/CD, TCP/IP
Bandwidth	1,6Gbps
Transmission method	Store-and-Forward
Optical indication of operation	Switch power supply Link/Act PoE status
Power supply	~100-240 V; 50/60 Hz; 1,3 A / 52 VDC; 1,15 A external power supply is included.
Operating conditions	Temperature -10°C ÷ 40°C, Relative humidity 5% - 90%, no condensation
Dimensions	W=118, H=28, D=85 [+/- 2mm]
Net/gross weight	0,5/0,7kg
Protection class	EN 60950-1:2007
Storage temperature	-20°C ÷ 60°C

* The given value of 30 W per port is the maximum value. The total power consumption should not exceed 48 W.

APPLICATION

This switch can supply up to 4 MEET devices. These devices can be either KIN PANELS or WIT MONITORS. Just connect each device to the one of the 4 PoE ports of the switch by means of an Ethernet cable.
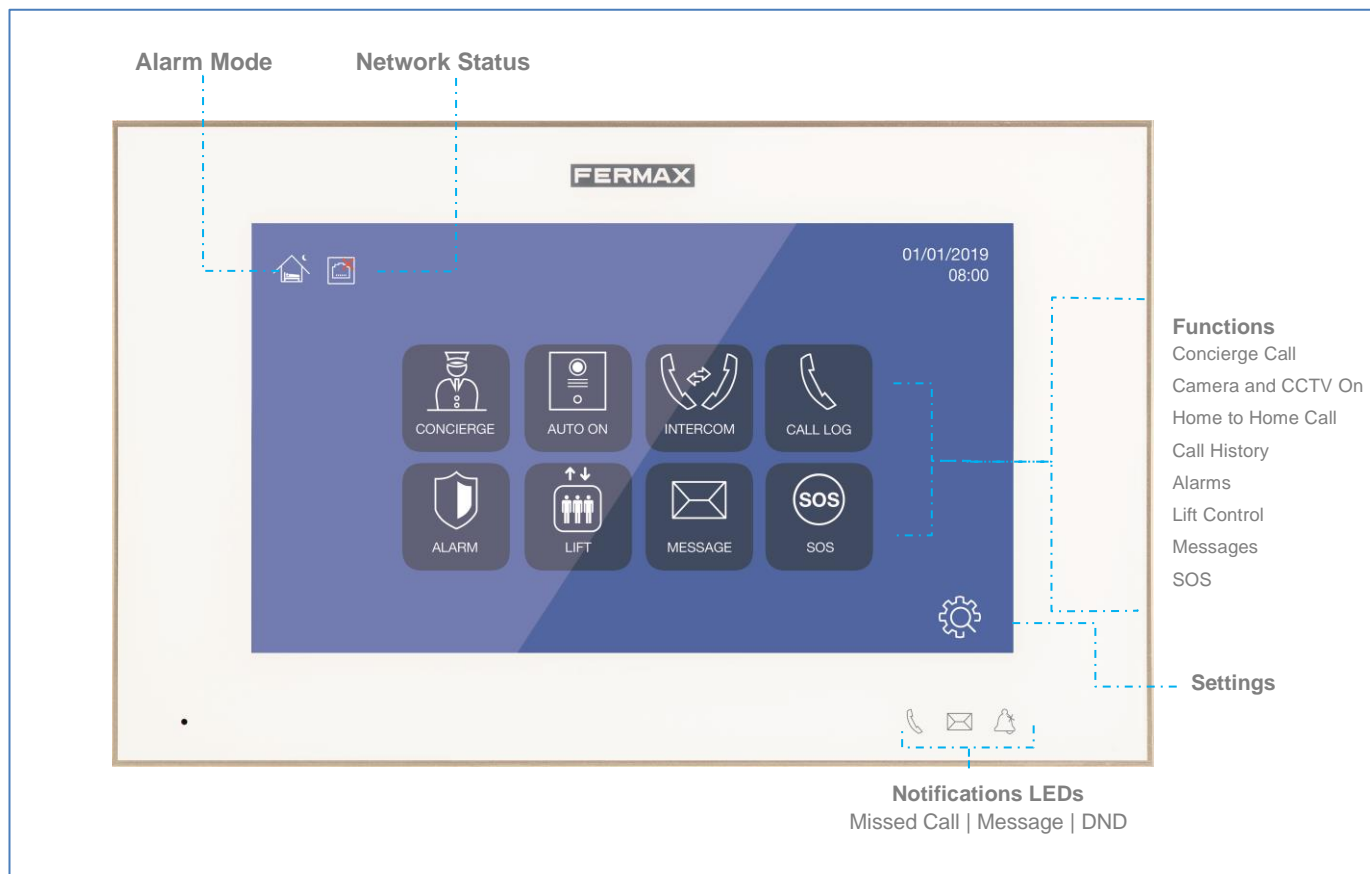

Furthermore, these devices can also be a MILO PANEL, a MIO MONITOR or a MILO GUARD UNIT. A PoE Splitter Ref. 1498 is required in this case.

The two UP LINK ports can be used to connect another switch.

	Accessories included: • Power supply • Brackets for rack mounting

REF.14721/14723/14831/14833 WIT MONITOR

WIT is a capacitive touch screen monitor available in 7" and 10" versions. WIT graphical interface provides an intuitive user experience since it is design focused on a residential intercom use. Based on Android 10.

FEATURES

- Capacitive Touch Screen (7" / 10")

- Hands Free Audio Communication

- High-definition colour TFT

- Different ringtones depending on call source

- 2 Different colour options (White and black)

- Network firmware upgrade

- Based on Android 10

- Available in 10 languages (English, Spanish, German, Polish, French, Chinese, Russian, Turkish, Hebrew, Portuguese)

- Apartment internal intercom

- Apartment to apartment external intercom

- Device identification by means of TAGS

- Door bell connection with IP camera visualization

- IP CCTV visualization (up to 8)

- Aux IP CCTV camera visualization and aux relay operation during call (up to 4 relays from Module Ref. 1491 connected to a MILO DIGITAL, KIN or MARINE panel).

- Relay activation (up to 8 using relay module)

- Home Automation Ready through Apps (in 7" and 10")

- Automatic and Manual Picture Capture

- Integrated 7 zones alarm + tamper

- SIP compatible

- Lift control with feedback

V3.5-R07/2023

1. CONCIERGE
Users can call the desired concierge by selecting it on the list shown in the user interface. If the concierge has a camera attached a video communication will be stablished, otherwise only audio.

2. PANEL AND CCTV CAMERA AUTO ON
Users can open the panel's video channel of their respective block for surveillance purpose. Once the panel communication is established, the user can take pictures, talk, and open the door if wanted. The pictures can be exported to a micro SD card. It is also possible to supervise the authorized CCTV cameras.

3. AUX CAMERA AND AUX DOOR LOCK RELEASE DURING CONVERSATION
When a call is received from the panel, it is possible to display different aux cameras (up to 4) to get a different angle of view or to follow the visitor. At the same time different aux relays (up to 4) can be activated to open additional gates or barriers.

4. VIDEO DOORBELL
It is possible to connect a pushbutton to the monitor so it will trigger the doorbell sound on the monitor. The doorbell call can automatically display the video coming from an IP CCTV camera, increasing the security.

5. INTERCOM CALL
The monitor allows to call different monitors in the same apartment.

6. EXTERCOM CALL
The monitor allows to call different monitors in different apartments with the same community.

7. CALL LOG
Users can have a clear view of their call history in the CALL LOG interface and are able to browse through the pictures taken for each call. There is possible an individual or a complete deleting of the registers.

8. PHOTO CAPTURE
When receiving a call, it is possible to automatically capture a photo. It is possible to take additional photos if desired.

9. MESSAGES
Users can receive text messages from their property management so they can easily know if there is a package, a maintenance schedule, or an import event on their community (software management required). Maximum 64 messages.

10. LIFT CONTROL
Tenants can enable the lift to their visitors to access their floor at the same time the panel door lock is opened from the monitor. Tenants can call the lift before leaving their apartment, so the lift car is ready on the floor.

11. ALARMS
The monitor provides 7 alarm zones management, managed under 3 simple modes:
HOME: Lowest Security level.   SLEEP: Medium Security level.   OUT: Highest Security level.

12. SOS
User generates an SOS alarm by touching this icon several seconds, sending a message to the concierge and management software.

13. DO NOT DISTURB
It is possible to set the monitor to DO NOT DISTURB mode, so the calls will not produce any sound during a defined period of time. Do not disturb led will light up if this function is active.

14. RELAY ACTIVATION
It is possible to activate up to 8 relays using ref. 1616 relay module.

All functions can be disabled by the installer, except Do Not Disturb function.

FERMAX

TECHNICAL SPECIFICATIONS

System:
- CPU: Quad-core
- FLASH: 4GB
- SDRAM: 1 GB
- S.O. Android 10

Screen:
- 7 and 10 inch format
- Capacitive touch screen
- Format: 16:9
- Resolution: 1024x600
- Brightness: 7" 200cd/m2; 10" 220cd/m2
- Contrast: 7" 400/1; 10" 450/1
- View Angle: 7" 160º Horizontal, 130º vertical; 10" 120º Horizontal, 110º Vertical

Audio/Video Features:
- G.711 audio codec
- H.264 video codec
- RTSP compatible for CCTV IP cameras
- Audio level adjustable on conversation and mute
- Hands-free operation
- Private communication
- Selectable call melodies based on call origin

Power Consumption:
- On standby: 200 mA (7") / 210 mA (10")
- Conversation: 500 mA (7") / 600 mA (10")

Working voltage:
- PoE
- 12 Vdc

Connectivity:
- 1 x Ethernet RJ-45 (WIT 7")
- 2 x Ethernet RJ-45 (WIT 10") for building and apartment network isolation.
- Doorbell input (1 alarm zone input)
- Panic button input (1 alarm zone input)
- Built in web server for configuration and remote management

Working Environment:
- Temperature: -10º C +55º C
- Humidity: 20 – 85% (Non-condensing)
- IP: 30
